CERTIFICATE OF COMPLIANCE

CERTIFICATE NUMBER: 210302-MH3217
ISSUE DATE: March 21, 2002

Issued to: Modern Welding Company
Box 1450
Owensboro, KY 42302-1450

Report Reference: MH3217

This is to Certify that representative samples of: "Glasteel" GS-13 Jacketed Underground Tanks for Flammable and Combustible Liquids also known as Glasteel II.

Have been investigated by Underwriters Laboratories Inc.® in accordance with the Standard(s) indicated on this Certificate.

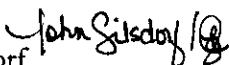

Standard(s) for Safety: UL1746, External Corrosion Protection Systems for Steel Underground Storage Tanks; UL58 Steel Underground Tanks for Flammable and Combustible Liquids.

Additional Information: These are horizontal cylindrical tanks designed for underground storage of flammable liquids at atmospheric pressure. The tanks covered by this certificate consist of a single wall horizontal cylindrical steel primary tank completely contained within a leaktight nonmetallic fiberglass-reinforced plastic (FRP) external jacket which provides secondary containment, corrosion protection, and a provision for monitoring leakage in the annular space between the primary steel core and the secondary containment. The tanks are intended to be installed in accordance with the manufacturers instructions and the Flammable and Combustible Liquids Code - NFPA30. A copy of the manufacturers installation instructions accompany each tank.

Only those products bearing the UL Listing Mark should be considered as being covered by UL's Listing and Follow-Up Service.

The UL Listing Mark generally includes the following elements: the symbol UL in a circle:  with the word "LISTED"; a control number (may be alphanumeric) assigned by UL; and the product category name (product identifier) as indicated in the appropriate UL Directory.
